

Great Lakes is a Woman-Owned, ISO 9001:2015 registered corporation who specializes in the manufacturing and integration of indoor/outdoor enclosures for the storage and protection of IT equipment. Through innovative engineering, Great Lakes is able to uniquely address the power, cable management, cooling, and security requirements associated with telecommunications, network, and server deployments of all sizes. All Great Lakes products are manufactured and assembled in the United States using 100% North American Steel.

BayTech by Great Lakes provides today's businesses with a means of controlling and monitoring computer and network equipment located remotely or in large data center environments. BayTech's modular power strips provide a unique framework for building rack PDUs. Unlike fixed receptacle configurations, BayTech's modular approach provides a system of modules used at the time of manufacturing to configure your power strip to the exact receptacle mix for your application..

Xtreme Power by Great Lakes is a global provider & manufacturer of UPS systems, is dedicated to providing the most reliable power protection for mission critical applications. Its innovative product portfolio ensures customer peace of mind with ideal solutions for maximum uptime. All products are UL, cUL, RoHS, FCC A, FCC B, and TAA compliant.

ProLabs has a portfolio of over 13,000 optical transceivers to service data rates from 100Mb to 100G and complete line of DAC and AOC with custom length, breakout and multi-vendor capabilities. ProLabs offers a complete line of Media Converters, OEO and fiber monitoring solutions

TiniFiber® is a U.S. Patented and Award Winning innovation that is a quality fiber optic cable built around the smallest Outer Diameter (OD) stainless steel Micro Armor Fiber™ for protection, durability, bendability and ruggedness.

Hubbell is a Complete End to End Copper and Fiber Optic Solutions for Your Network. Allow us to help you select and facilitate Your Network Requirements and Exceed Your Expectations.

AccelTex Solutions engineers & manufactures Products and Accessories for Wireless Networks with Over 20+ years of experience in the wireless industry with a sole focus on Wi-Fi products.

Manufacturer of IT infrastructure measurement technology is to optimize your work processes whether you are certifying copper and fiber optic cables after installation with the **WireXpert** or troubleshooting an office network with the **NetXpert** and Ethernet network tester.

Fiber Optic Cable Splicers and Splice on Fiber Optic Connectors and Cable for Your Singlemode and Multi-mode Installation and Maintenance. Single Fiber as well as Ribbon Fiber Applications

PureNet is a Reliable, High Performance Communications Cable deigned for Cat 5E, Cat 6 and Cat 6A Network Applications. All **PureNet** Products are Performance Verified and Listed by UL.
